Hi Jeff,

Ok, sounds good. I am working on confirming contacts for Wednesday at 9:00 am in Seattle. I'll get back to you asap.

Thank you,
Tom

Hey, Tom, I got your voice mail, thank you.

Let's go ahead and plan this meeting even though you and Christine won't be able to attend. With your representatives there (the folks who attended the walk?) I will hopefully be able to incorporate their observations and concerns into a proposal to my supervisors and still be able to line up the paperwork while on my other field project. Keep moving forward!

After speaking with Wally, he anticipates another meeting with you and Christine once decisions and plans are more finalized. And it might be nice if I gave you a little notice!

Please send my contact information to your representatives or send theirs to me so we can finalize plans. If you have any questions, I'm by my phone now.

Jeff, thanks so much for sending this. Mark Stockdale and Jim Neely are available next Wednesday. I have copied them here so that you all can coordinate the logistics.

Christie

Attached is a short summary report of observations made by EPA from the site visit conducted last week.

I would like to call a meeting with the stakeholders regarding plans moving forward. At this meeting, we can compare observations from the site walk, near- and long-term plans, and EPA's role. I hope you can make a meeting at our building (address below) on Wednesday, August 15, sometime between 09:00 AM -12:00PM. If this is possible, please let me know and I will finalize arrangements.

Sorry for giving such short notice, but I will be deployed to another site for 4 weeks beginning Monday, August 20 to Saturday, September 15. During this time, I would like to complete my documents and complete plans to take actions in October if we can all agree on parameters of EPA's scope of work.

Thanks!

Jeffrey Fowlow, PG, CHMM
